# WATERFALL: BUILD THE PRODUCT **RIGHT?**

# EARLY DECISIONS HURT!

# WATERFALL VS. AGILE

**Waterfall** is based on a **predictive model** that assumes everything is known up-front

**Agile** addresses the **emergent nature** of developing services, accounting the fact that user-centric requirements change and become known during time

# AGILE MEANS

**ITERATION** BASED DEVELOPMENT, CONDUCTED BY  
**CROSS FUNCTIONAL, SELF-ORGANIZING** TEAMS  
WORKING **COLLABORATIVELY**,  
CONSTANTLY **INSPECTING** AND **ADAPTING** THEIR WORK  
TO ACHIEVE A **BUSINESS GOAL**

# WHY DO I CARE?

- **Learn** about it, you must
- **Audit** it, you will
- **Enable** it, you should
- **Use** it, you could

# BIG BANG DISRUPTION

BE THE UNSTOPPABLE FORCE
